WINERY CAVE TOURS & TASTINGS IN NAPA VALLEY

Winery Caves are not just a beautiful place to cool off in warm weather, they serve a very fundamental purpose in the wine making process. Caves provide a cool and humid location to store wine as it ages to perfection in their barrels, and they also serve as a unique tour and tasting location.

Here are the best winery caves to visit in Napa Valley:

B Cellars Vineyards

There are more than 15,000 square feet of caves for barrel storage, tours, tastings and private events. Tasting experiences occur in The Beckstoffer Heritage Tasting room located within the caves. The room is named after pioneer grower, Andy Beckstoffer, with whom B Cellars works closely with. The caves can accommodate up to almost 100 people. Group wine blending classes can also be arranged.

Their Private Heritage Excursion is designed for the avid wine collector in mind and is hosted in their Beckstoffer Heritage tasting room in the cave. Guests will enjoy their highly allocated Beckstoffer Heritage wines from various vintages. Each tasting is paired with local cheese, charcuterie and accompaniments from the B Cellars kitchen. By appointment only.
